

**YOU NEED:** A replaceable polyurethane system.  
Reduced blinding. Increased wear life.  
Maximum throughput.

**THE UNIFIED® ANSWER:**  
FLOWMAX modular screening system.

If you want better performance from your screens, talk to Unified. We design and manufacture screens to meet actual customer needs. No compromises. No short-term fixes.

Our **FLOWMAX polyurethane modular screening system offers you a polyurethane system – as you need it.** FLOWMAX gives you the flexibility to use polyurethane, without permanent deck modifications. Field reports indicate that FLOWMAX screens have 5 to 15% more open area than competitive screens. FLOWMAX polyurethane screening surfaces can last an average of 15 times the life of wire cloth.

Unified screening, crushing and sizing products perform better on the job, because **they are inspired by the job.** You get commitment and experience every time you place an order. Call us at **866-968-3697** or go online at **unifiedscreening.com**. We're Unified® for you.
