

We're Unified® to provide the right screening media for every application.

With more than 16 locations across the country, Unified has the screen media, wear parts and expertise to meet local needs – fast.

Perforated/punch plate:

Perforated plate, staggered opening design, provides a stronger screening surface.

Available in round, square or hexagonal openings, this screen media delivers options for your sizing operations.

85 Rockwell 'B'/AR-235/400/500 are standard available materials. Excellent, wear-resistance, superior impact resistance and maximum open area are tailored to your unique application.

Rubber-clad perforated plate: Excellent wear and impact for your extreme situations. Increase screening action, strength and wear-resistance. Ideally suited for scalping applications. Available openings from 1" to 10" round or square.

We're Unified For You!
