

## Unified® Screening & Crushing - *Job-Inspired Performance*

### "Our Business is Crushing Rock Not Replacing Screens!"

"I saw a great reduction in the number of change-outs, plus screen cost savings and production increases. Unified® supplied us with the Tufflex® SuperFlow® screens that outlast any previous product we have used. With the material wearing longer, we've had a cost-savings benefit due to the longevity of the screens. In today's economy, it helps to have a dependable product that can improve your bottom line."

#### Independently vibrating wires in four styles:

W-style

D-style  
(Diamond)

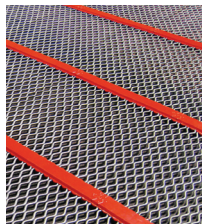

H-style  
(Herringbone)

T-style

Mitch Brown –  
Porterville Rock &  
Recycling

SuperFlow - A hybrid  
of Polyurethane and  
Wire Cloth.
